

MALICIOUS USE

- 1 PERSON**
Could someone use it to harm one person on purpose?
Could a bad actor target a specific victim?
- 2 COMMUNITY**
Could someone use it to harm a group on purpose?
Could it be turned against a specific community?
- 3 SOCIETY**
Could someone weaponise it at scale?
Could bad actors use it to harm masses?
Could a state actor repurpose it?

MALFUNCTIONS

- 4 PERSON**
Could it fail and hurt one person?
Could it produce a wrong output someone acts on?
Could it leak a single user's data?
- 5 COMMUNITY**
Could it fail and affect a group?
Could one bug cascade through a workplace, family, or friend circle?
- 6 SOCIETY**
Could it fail at scale?
Could one flaw expose or harm millions at once?

SYSTEMIC RISKS

- 7 PERSON**
If it works perfectly, what gets reshaped in a person?
What habits or sense of self drift?
What does someone lose without choosing to?
- 8 COMMUNITY**
If it works perfectly, what gets reshaped in how a group functions?
What does the group harden into?
What gets quietly given up?
- 9 SOCIETY**
If it works perfectly, what gets reshaped in norms, institutions, or power?
What settles in that nobody decided?
